

Installation Instructions

Catawba Mac IOS Keyboard Package

1. Go to the Apple Application Store on your iPhone or iPad.
2. Click to open the App Store and click the magnifying glass symbol bottom right of your screen to open the “search” bar.
3. Enter “Keyman” in the “Search” bar.
4. When the word “Keyman” appears in the list of suggested applications, click on it.
5. When the download is complete a “Open” button will appear under the Keyman name. **Don’t click on it.** Instead open your browser and go to <https://geolinguistics.ca/catawba-language-keyboard/>
6. When the download is complete a “Open” button will appear under the Keyman name. **Don’t** click on it. Instead open your browser
7. On the CATAWBA LANGUAGE KEYBOARD page click on and download to your i-Device the **Catawba Keyboard V2.0 IOS/iPhone/iPad Installer** or, just select this link
8. Touch “Download” at the bottom of the screen when it appears to download the file to the “downloads folder” on your device.
9. Next simply touch the file to open it. It will ask “open it in” at the bottom of that download screen. Scroll through the line of apps and select Keyman.
10. You will get a new screen asking “Install” at the top right. Touch “Install”
11. You will see a new screen saying “Start Using Catawba 2023. Touch “Done”
12. The installation is finished. Use the keyboard per the instructions for usage. You access the keyboard by touching the globe that appears bottom left of your existing keyboard.
